SIGNATURE: _____ **DATE:** _____

We have received and answered the following questions:

1. **QUESTION:** What thickness of insulation is desired in storage building? (reference page 15 of 29 under Deliverables)
ANSWER: This is a design build. Insulation should be the thickness type and “R” value required by code for this type of building.
2. **QUESTION:** What is the roof pitch?
ANSWER: This is a design build. The roof must allow proper drainage and comply with code
3. **QUESTION:** Is the roof painted or galvanized?
ANSWER: This is a design build. The City will consider either; however, we reserve the right to negotiate with any and / or all Offeror’s during evaluation, award or post award.

4. **QUESTION:** Where is the "Applicable Compliance Specification Sheet?"
ANSWER: This is not applicable during this phase of a design build
5. **QUESTION:** Where is the "Applicable Addenda Acknowledgement Sheet?" or will this be provided if addend are issued?
ANSWER: These will be included with each addendum
6. **QUESTION:** We are in the process of registering our corporation with the Federal Work Authorization Program. If we do not have our Federal Work Authorization User Identification Number by July 9th, will this disqualify us from the bid?
ANSWER: Obtaining the number is almost instantaneous. Technically the number isn't required until a contract is executed
